British Columbia

February 20, 2017

Re: Presenting to City Council

I would like to request being added to the agenda for either of March Council meetings.

I would like to offer my assistance in creating an educational display somewhere in Prince Rupert, possibly Cow Bay, regarding the north coast's natural environment.

The recent creation of the Great Bear Rainforest offers some valuable opportunities to market our area and I would like to offer any assistance our Agency could, if the city was interested in a possible educational display.

I could assist with creating educational content and possibly find wildlife items and help with obtaining permits.

If the City has interest in such a display, I would like to work with City staff and/or a committee to try to make the display a reality.

I believe an educational display such as this would help improve understanding of our area and provide a venue for tourists to visit.

Yours truly,

Gareth Scrivner, Conservation Officer
North Coast Zone, Terrace Office
