

FOR IMMEDIATE RELEASE

WATER QUALITY ADVISORY LIFTED

Advisory was in effect for at-risk users

PRINCE RUPERT, MARCH 1st, 2022 – Residents are advised that all water quality advisories have now been lifted.

If water users continue to see a milky quality or sediment in their water, please run cold water, preferably through your bathtub or laundry sink taps, until it is cleared. Do not run appliances that use the water system (laundry, dishwasher, fridges) until water runs clear.

For more information, please refer to the City of Prince Rupert's website at www.princerupert.ca or contact the Operations Department.
