

JOB POSTING - EXTERNAL

Position:	Project Manager - Engineering	Date of Posting:	April 24, 2026
Reports to:	Director of Operations	Closing Date:	May 15, 2026
Job Type:	Permanent Full-time	Employment Type:	Exempt
Salary Range	\$119,125 - \$143,949	Expected Start:	ASAP

The City of Prince Rupert respectfully acknowledges that we live and work on the traditional and unceded territories of the Ts'msyen and Sm'algyax-speaking peoples. We offer gratitude to the people who have lived on these lands since time immemorial.

Why work for the City of Prince Rupert?

The City delivers the essential services that keeps our community moving and supporting residents, local businesses, and industry every single day. Working here means more than just doing a job; it's about serving the community you call home, building meaningful relationships, and seeing the real impact of your work firsthand. We are deeply committed to fostering a respectful, inclusive, and supportive workplace where diverse perspectives, lived experiences, and local knowledge are not only welcomed, but truly valued. We encourage applications from individuals who share our commitment to public service and who want to help build a community where everyone feels they belong.

"Let your skills and talent grow alongside us as we reshape our city's future!"

Who you are

You are a detail-oriented and collaborative engineering project management professional who thrives in a dynamic, multi-faceted environment and is motivated by making a positive impact in our community. You bring a strong understanding of the complexities of local government and a shared commitment to delivering a high-quality service to the City's major infrastructure projects. With experience leading complex capital projects, you confidently guide all phases of delivery—from planning and design through construction, commissioning, and closeout—while engaging respectfully and proactively with diverse stakeholders, partners, and members of the City team. You approach your work with integrity, accountability, and transparency, excel at managing budgets, schedules, contracts, and risk, and take pride in ensuring projects meet legislative, regulatory, and industry standards. Driven by teamwork and continuous improvement, you are inspired by contributing to safe, resilient, and well-delivered infrastructure that serves everyone.

What you'll bring

- Diploma in Civil Engineering Technology, with current registration or eligibility for registration with the Applied Science Technologists & Technicians of British Columbia (ASTTBC). P.Eng. designation is considered an asset.

-
- Certificate or designation in project, contract, or construction management—such as Project Management Professional (PMP) is considered an asset.
 - A minimum of seven (7) years of progressively responsible experience managing civil engineering or infrastructure projects, preferably within a municipal or public-sector environment.
 - Demonstrated experience delivering complex capital infrastructure projects—such as roads, bridges, and water and wastewater systems—through all phases of the project lifecycle, from planning and design through construction, commissioning, and close-out.
 - Experience beyond seven (7) years, particularly with large-scale or multi-stakeholder projects, is considered an asset.

Compensation & Benefits

The position offers a competitive salary, a comprehensive benefits and pension plan, relocation assistance, and ongoing personal and professional development opportunities.
